OUR ESTEEMED SPEAKER

Dr. Apoorva Gupta

Dr Apoorva Gupta, a gold medalist Post Graduate in Periodontics and Oral Implantology is the principal expert on Laser Dentistry. She is the first periodontist in Delhi to implement Waterlase laser procedures into her specialty practice and has become the only dentist in North India to obtain a Mastership in Laser Dentistry from World Clinical Laser Institute, California, USA. She graduated from Meerut University with distinction and completed her PG (Cert) in Endodontics from IGNOU, at Maulana Azad Medical College (MAMC), New Delhi. She was trained and certified in Advanced Aesthetic & Cosmetic Dentistry at GC campus, Belgium and Switzerland. Her vast clinical experience in lasers has positioned her to be the "go-to" person in this field of dental treatment. She has also trained Diode and All Tissue Laser Users and is a speaker for various Laser Dentistry Courses & programs. She mentors Clinical Periodontics and Laser Dentistry workshop at Smile India Academy, Delhi. She has to her credit several papers and publications at various national and international dental conferences. She is currently practicing as Senior Consultant at Max Superspeciality Hospital and leading dental clinics in Delhi, NCR.

ABSTRACT

In an informative presentation, participants will experience the revolutionary field of lasers in dentistry and hygiene. Course topics include (laser physics) safety and tissue interaction, as well as techniques for success with Laser Endodontics, Periodontal Therapy, Aesthetic Soft Tissue Surgeries, Restorative Procedures, Tooth Whitening & Tissue Bio-stimulation . Participants learn through multi-media slide and video presentations as well as by performing demonstration as well as hands-on on Goat Jaws by Soft Tissue Diode Laser. By the end of the day, participants will be ready to go back into their practices & institute the most commonly used soft tissue procedures and periodontal therapies with confidence.

SCHEDULE :

- 10:00 AM - 10:30 AM : Registration with Tea / Coffee
- 10:30 AM - 11:30 AM : Fundamentals of Lasers history, Physics, Laser Tissue interaction and Safety,
- 11:30 AM - 01:30 PM : Lasers clinical Applications
- 01:30 PM - 02:00 PM : Lunch
- 02:00 PM - 03:30 PM : Hands on followed by certification
