## Biology Teacher

**About Me** I am a self motivated teacher and my area of expertise is Biology. I have pursued B.Sc. degree with Hons. in Zoology and M.Sc. degree in Zoology as well, from Calcutta University. Following my post-graduation I have pursued B.Ed. degree from Calcutta Girls' B.T. College. My experience includes more than 2 years of teaching high school level biology at The BSS School, Kolkata. I enjoy reading and the perspectives I gather from reading have helped me strengthen my teaching skills over time. I love interacting with people and specially with students as they tend to possess the most inquisitive minds. Throughout my teaching experience, I have mastered the ability to plan, schedule, and handle many different tasks at once. Teaching is my passion as it enables me to impact the society by empowering minds with knowledge, creativity and wisdom.
