Collaboration

EXPERIENCE

February 2024- March 2024

Focus was on laid on classroom management and teaching the student following child centric method (use of TLM and aids) and reinforcing. Activity was conducted in the class for checking the previous knowledge. After completing a topic on unit, class test was conducted to know whether the students have understood or not else change in teaching strategy is required. Activity in Class: The student were given the knowledge on vote by conducting elections in the school where students will vote to elect the candidates. There by teaching them how our vote matters. Laid emphasis on the mistakes.

Project

Excursion to Purulia

November 2023

Excursion where being taught how a topic is integrated with different subjects like Mathematics (use of graph to compare distance, measuring height, length and calculation of time) Environmental Science(marking on the map of Purulia rivers and dams, knowledge about soil, climate, vegetation, flora and fauna along with history of purulia), English(writing about the tourist spot) and art and craft(making chhau mask).
