Signature of the Applicant

The objective of the Regional Science Association, India are to disseminate and to develop the tools of Regional analysis and to encourage the application of such tools to the concrete problems of India or formulation and development of new tools for dealing with the specific problems of developing countries like India for regional development. These objectives are sought to be realized by encouraging publication of scholarly papers, journals and monographs, by undertaking research and empirical studies and by performing services to the academic advancement of its member in the field of regional science.

The members will receive the Indian Journal of Regional Science free of cost.
